Understanding Merge Mechanics

Basics of Merging

The primary gameplay mechanic in Merge Dragons revolves around merging three or more identical items to create a higher-level item. This merging system is not only satisfying but also essential for progression. Players will encounter various objects, including dragon eggs, treasures, and magical items, all of which can be merged to unlock new capabilities and rewards.

Types of Items

In Merge Dragons, items are classified into several categories, each with unique characteristics and purposes:

- **Dragon Eggs:** These are the starting point for raising dragons. Merging three eggs of the same type will yield a dragon.

- **Dragons:** Once hatched, dragons can be merged to create more powerful versions, unlocking new abilities.
- **Life Flowers:** Essential for healing and expanding your camp, these flowers play a crucial role in gameplay.
- **Treasure Chests:** These contain various rewards and can be merged for better loot.
