Type advantages play a crucial role in battles. Each Pokémon has one or two types, and understanding their strengths and weaknesses is essential for success. Building a Balanced Team

As you progress, it is important to build a well-rounded team of Pokémon. Consider including a mix of offensive and defensive Pokémon, as well as those that can cover each other's weaknesses. Here are some tips for team building:

- Incorporate different types to cover all bases.
- Include Pokémon with varied movesets to handle diverse opponents.
- Level up and evolve your Pokémon regularly to maintain competitive strength.
