Choosing a Clan

There are several clans to choose from, each with its strengths and weaknesses. The choice of clan will influence your gameplay style, as follows:

- **Brujah:** Known for their physical prowess and rebellious nature, Brujah vampires excel in combat.
- **Nosferatu:** Masters of stealth and information gathering, Nosferatu are perfect for players who prefer a subtle approach.

Attributes and Skills

After selecting a clan, players will need to allocate points to various attributes and skills. Attributes are divided into three categories: Physical, Social, and Mental. Skills further refine your character's abilities in areas such as combat, stealth, and persuasion.

It is advisable to focus on a few key attributes that align with your clan's strengths. For instance, a Brujah might prioritize Physical attributes, while a Toreador may enhance Social skills. This targeted approach will make your character more effective in specific situations.

Gameplay Mechanics
