What is an INFJ?

The INFJ personality type, which stands for Introverted, Intuitive, Feeling, and Judging, is one of the

sixteen personality types identified by the Myers-Briggs Type Indicator. INFJs are often described as "the Advocate" or "the Counselor" due to their deep sense of empathy and commitment to helping others. They are characterized by their complex inner world, which allows them to understand and connect with people on a profound level.

Individuals with this personality type tend to be idealistic, passionate, and insightful. They are often driven by their values and a desire to contribute positively to the world. INFJs are also known for their creativity and strong intuition, which helps them navigate complex social situations and understand the feelings of others.

The Importance of Personality Quizzes
