The idea of an old soul is often steeped in spiritual philosophy and metaphysical beliefs. An old soul is generally thought to be someone who possesses wisdom and insight beyond their years. This perception can stem from a variety of experiences, including a deep emotional understanding, a sense of nostalgia for a time they never lived in, or a tendency to see the world through a lens of compassion and empathy.

People who identify as old souls often feel a disconnection from their peers, finding themselves more content in solitude or engaging in meaningful conversations rather than superficial small talk. They might gravitate toward art, literature, and music from the past, feeling a strong connection to what has come before them.
