Each archetype represents a unique approach to makeup and self-expression, allowing individuals to showcase their identity through their aesthetic choices. The Dear Peachie makeup archetypes quiz identifies these archetypes, helping users find their ideal makeup persona.

Types of Makeup Archetypes

The makeup archetypes can generally be classified into several distinct categories. While the specific names and characteristics may vary, they typically include:

- **The Classic:** This archetype embodies timeless elegance. Classic makeup looks often feature neutral tones, subtle blush, and a touch of mascara. Think of a red lip or a perfectly winged eyeliner.
- **The Trendsetter:** This individual loves to experiment with the latest beauty trends. Bold colors, graphic liners, and experimental techniques define this archetype, making it perfect for those who enjoy being at the forefront of makeup innovation.
- **The Natural Beauty:** This archetype emphasizes minimalism and enhancing one's natural features. Light foundation, a hint of color on the cheeks, and a touch of gloss are typical for the natural beauty.
- **The Glam Queen:** Glam queens are all about drama and opulence. Think full-coverage foundation, bold eyeshadow, and statement lips. This archetype thrives in creating show-stopping looks.
- **The Artistic:** This archetype sees makeup as a canvas for creativity. From intricate face art to avant-garde designs, the artistic archetype loves to push boundaries and explore new concepts.
