History of Halloween

The origins of Halloween date back over 2,000 years to the ancient Celtic festival of Samhain, which was celebrated on the night of October 31. The Celts believed that on this night, the boundary between the living and the dead was blurred, allowing spirits to return to Earth. To ward off these spirits, they would light bonfires and wear costumes. As time progressed, Halloween transformed through various cultural influences, including the Roman festival of Feralia and the Christian observance of All Hallows' Eve, which eventually evolved into Halloween.

In the 19th century, Halloween began to take on a more community-oriented and festive atmosphere, particularly in the United States. Irish immigrants brought their traditions to America, leading to the widespread celebration of Halloween, complete with trick-or-treating, costume parties, and haunted houses. The commercialization of Halloween in the late 20th century has turned it into a multi-billion-dollar industry, with people spending on costumes, decorations, and sweets. Today, Halloween is celebrated in various ways around the world, each culture adding its unique twist to the festivities.
