Understanding the Praxis Exams

The Praxis exams are a series of assessments that measure the knowledge and skills of prospective teachers. These exams are administered by the Educational Testing Service (ETS) and are designed to evaluate whether candidates possess the necessary competencies to succeed in the classroom. The Praxis series includes three main types of tests: Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Principles of Learning and Teaching.

The Praxis Core is primarily focused on assessing basic skills in reading, writing, and mathematics. Subject Assessments evaluate a candidate's knowledge in specific subject areas, while the Principles of Learning and Teaching tests assess pedagogical knowledge and teaching strategies. Each state has its own certification requirements, and passing scores may vary, making it essential for candidates to familiarize themselves with their state's specific criteria.
