Understanding the TACHS Exam

The TACHS exam is a standardized test designed to assess students' readiness for high school, particularly in Catholic institutions. It typically covers three main areas: reading comprehension, mathematics, and language skills. Each section is strategically designed to gauge a student's understanding of core concepts, critical thinking abilities, and problem-solving skills. The test is usually administered to eighth-grade students as they prepare to transition into high school.

Each section of the TACHS is timed, and students must be prepared to manage their time effectively while answering a variety of question types.
